ÉNERGIE & ÉCOLOGIE

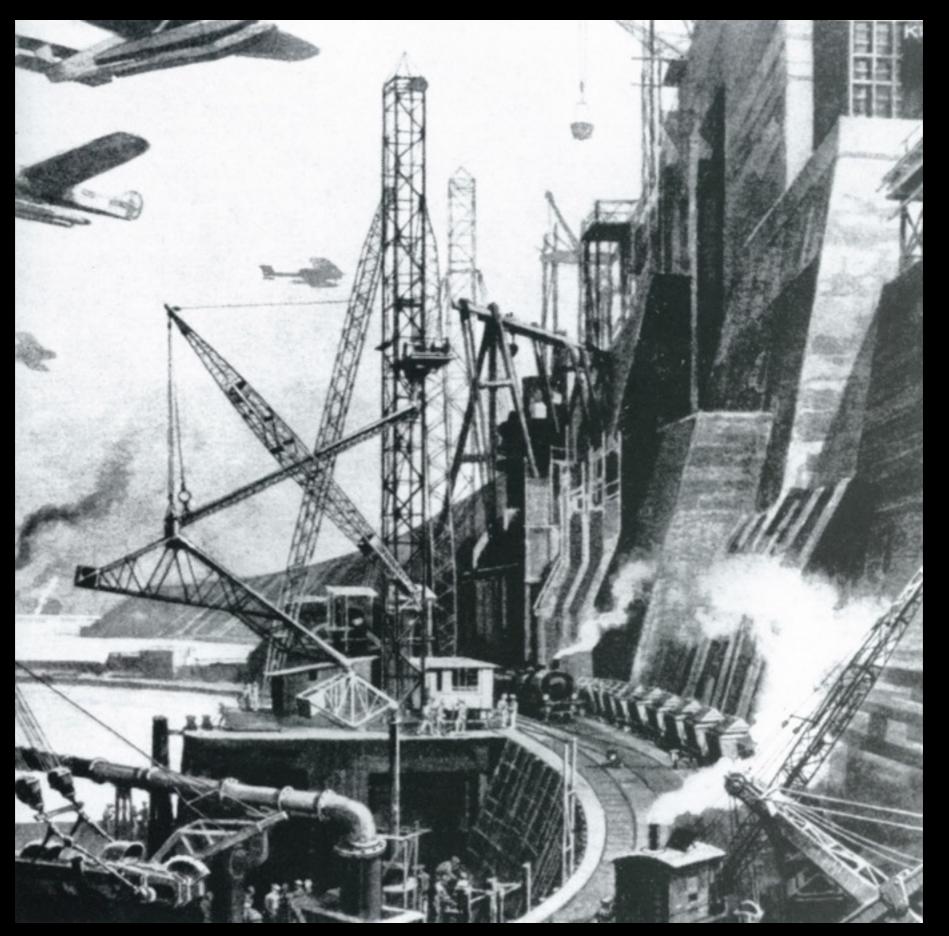

Was ist Atlantropa? - Mittelmeersenkung. Afrikakultivierung. Großkraftnetz.

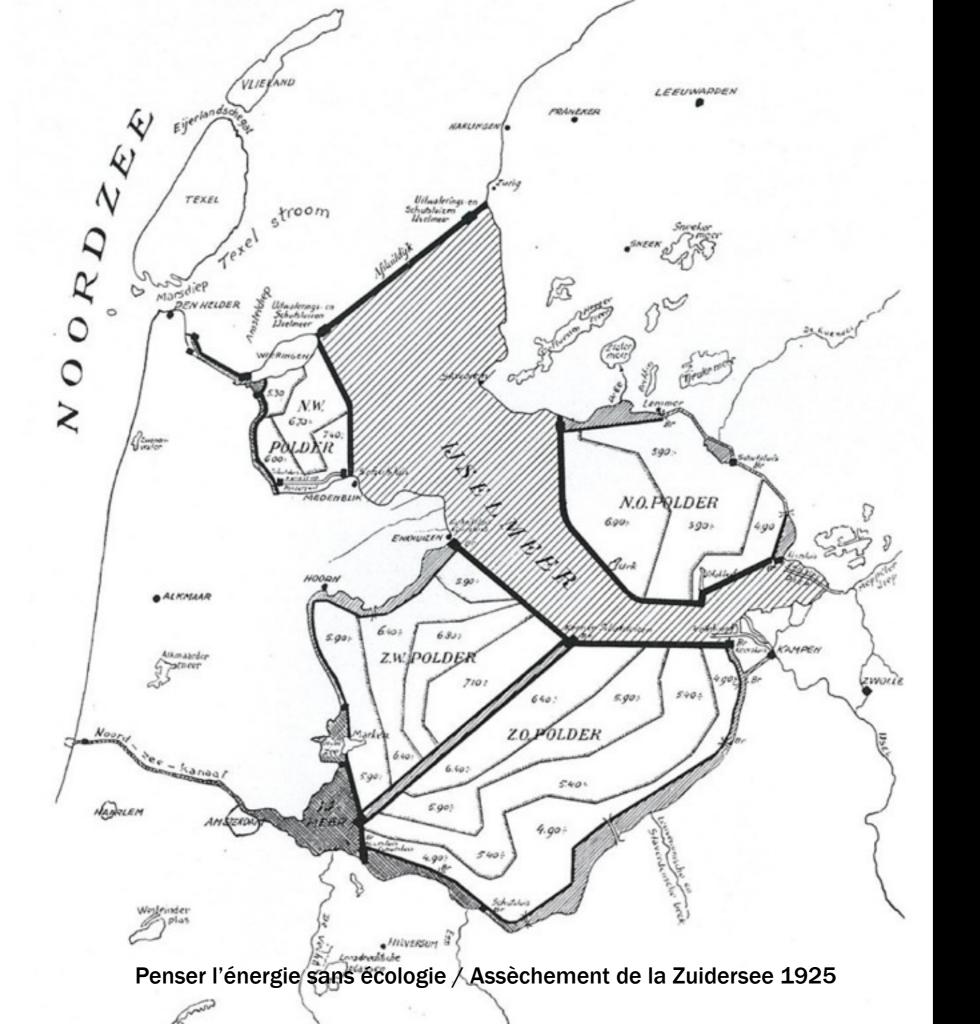

Wenn man alle Zuflüsse zum Mittelmeer abdrosselt, senkt sich das Mittelmeer jährlich um 165 cm. Durch teilweise Abdrosselung kann man Land und Wasserkräfte gewinnen.

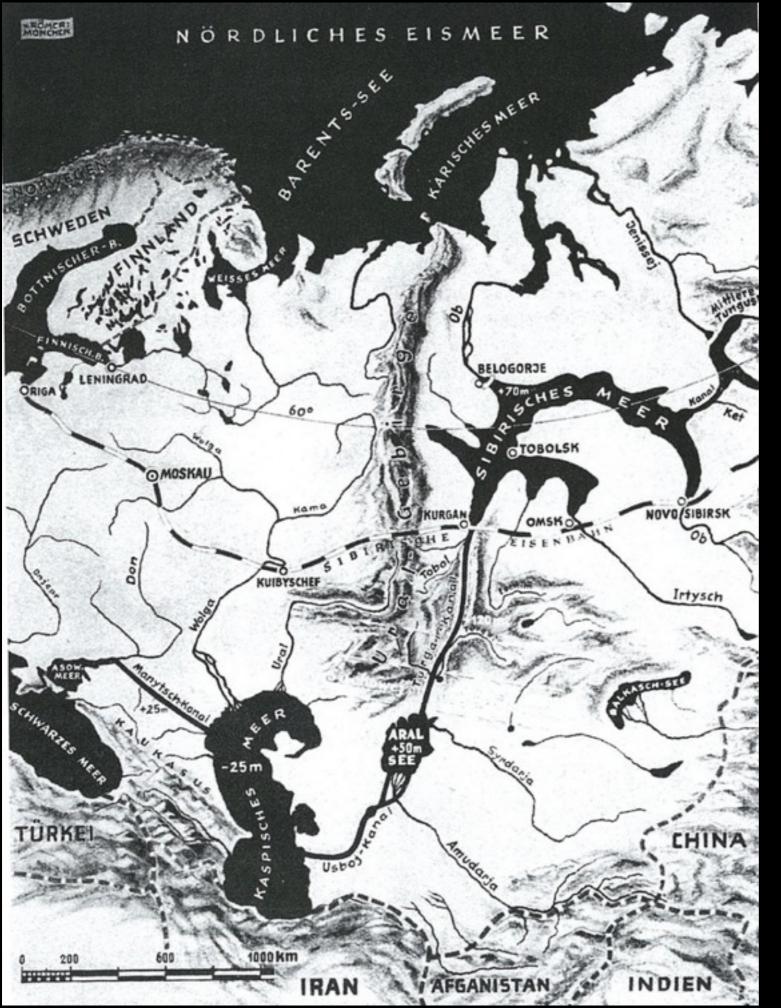

Was technisch möglich ist, soll wirtschaftlich ausgenützt werden. Die Wirtschaftseinheit Atlantropa könnte so zugleich als politische Macht die Kultur des Abendlandes vor dem Untergang bewahren.

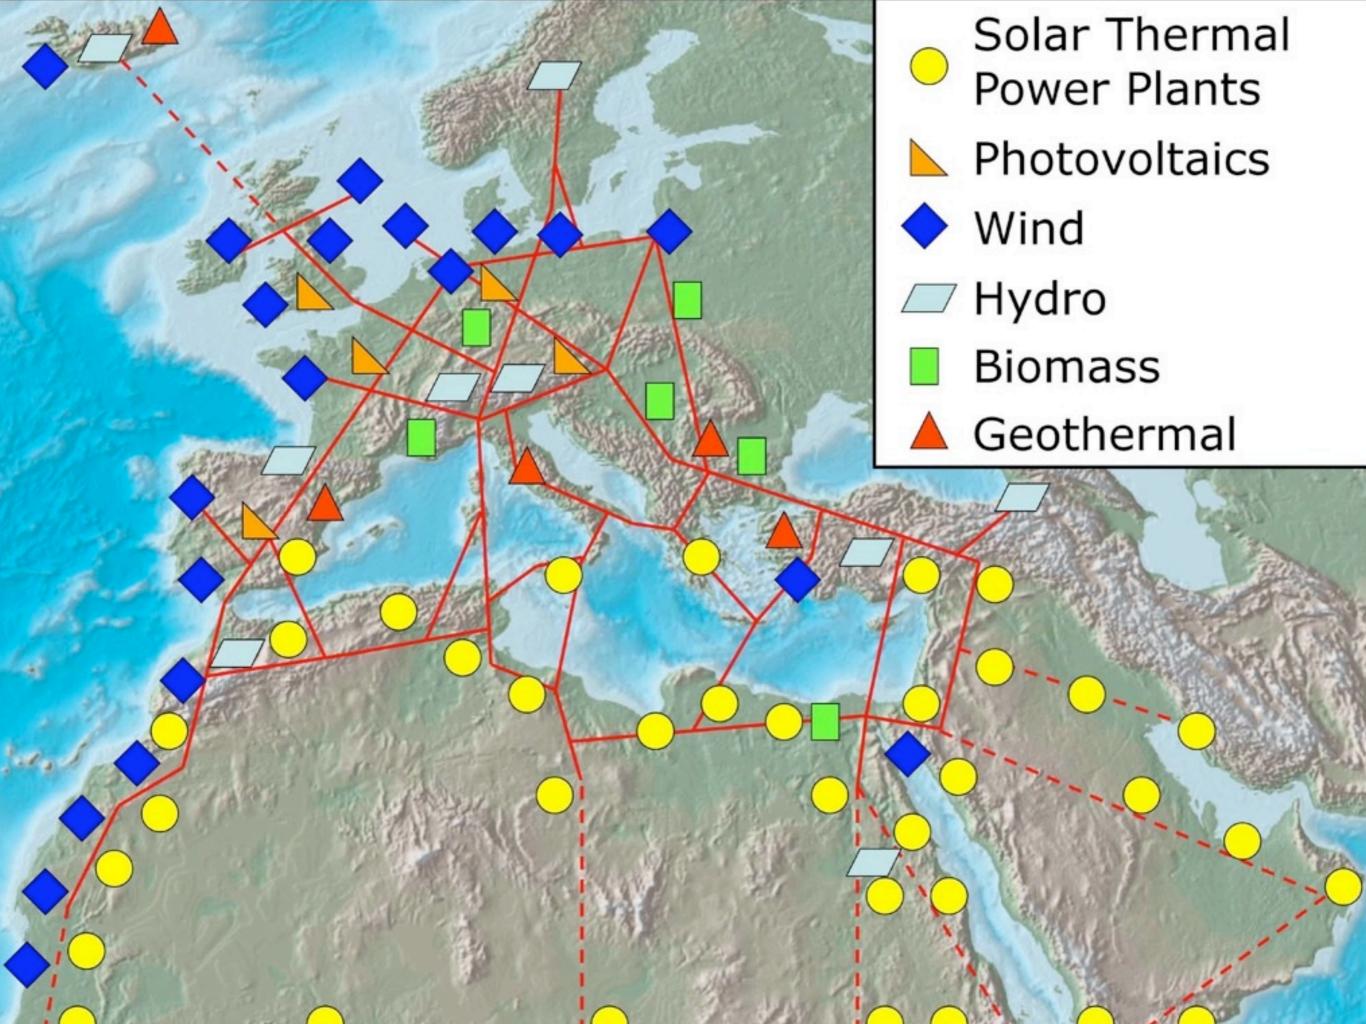

Penser l'énergie sans écologie / Hermann Sörgel : Barrage à Gilbratar 1932

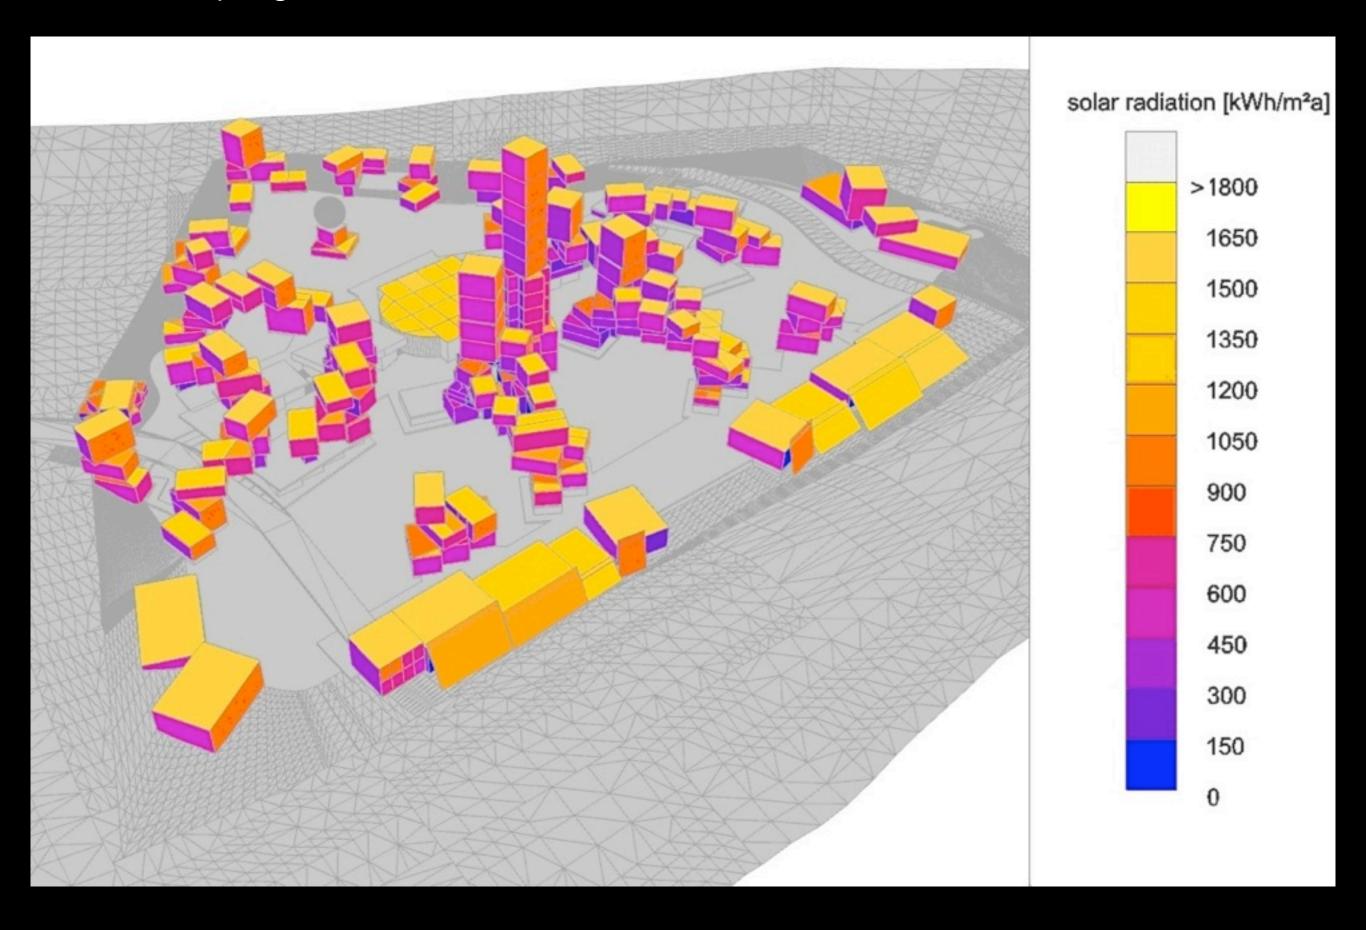

Penser l'énergie sans écologie / Projet Dawydow ou « Plan Staline » 1949
