

10 November 2016

Program

La Maison de l'Amérique Latine
217 boulevard Saint-Germain - 75007 Paris

10.00 Welcome and registration

10.15 Session 1: Natural gas: markets and prices

- What is the situation in term of reserves and production? How long will the potential significant overproduction last?
- What is the state of the LNG projects in Australia, East and West Africa and in the US?
- What is the market state in the main regions (North American, Europe, Asia)?
- What is the impact of the recent increase in oil prices?

12.15 *Lunch*

13.45 Session 2: Consequences of the US Election

- Internal consequences: impact on the oil industry. Impact on the gas industry: more or less regulation on shale (oil and gas) production? Future LTO and natural gas production.
- International consequences: position of the US vis-à-vis the Middle East (Oil interests). Future relationship with Russia on one hand, with China on the other hand.

15.15 *Coffee break*

15.45 Session 3: Current Issues

- The state of the energy market: oil, gas, electricity, renewables. The situation in some important producing countries: Venezuela, Nigeria, Russia.
- The situation in the Middle East: increased or reduced tensions between Saudi Arabia and Iran. Development of production in various countries.
- A few words on the COP 22
